

NABIL HAMADA EBRAHIM

Full Stack Web Developer (Laravel Specialist)

Giza, Egypt | +201118172639 | Nabilhamada421@gmail.com | linkedin.com/in/nabil7amada | github.com/nabil12ful

PROFESSIONAL SUMMARY

Results-driven Full Stack Web Developer with 4+ years of hands-on experience specializing in the Laravel ecosystem (PHP, Livewire, Tailwind CSS). Proven track record of developing scalable web applications, designing robust database architectures, and deploying products on fully-managed VPS environments. Expert in server administration, multi-domain hosting optimization, and secure API integrations. Adept at leading software teams and transforming visual designs into high-performance, responsive digital products.

TECHNICAL SKILLS

Backend & DevOps: PHP, Laravel, MVC, RESTful APIs, OOP, VPS Administration (Ubuntu Server), Apache/Nginx, Multi-Domain Hosting.

Frontend Development: Livewire, Tailwind CSS, JavaScript, jQuery, AJAX, HTML5, CSS3, Bootstrap.

Databases & Tools: MySQL, SQL, Database Schema Design, Query Optimization, DNS Management, SSL Configuration, Git, GitHub.

Core Competencies: Server Resource Allocation, Software Architecture Planning, Agile Methodology, Team Leadership, Pixel-Perfect Conversion.

WORK EXPERIENCE

Full Stack Web Developer & DevOps (Freelancer)

Remote | 03/2021 – Present

- Administered full VPS Linux servers (Ubuntu), managing secure application deployment and server optimization.
- Configured virtual hosts and multi-domain routing to efficiently host and isolate multiple web applications on a single server.
- Designed and optimized relational database schemas (MySQL) ensuring high availability and improving query performance by 25%.
- Managed end-to-end DNS records mapping, SSL certificate setups, and system access security controls.

Backend Web Developer (Laravel) / Team Leader

Comma Codes Group – Cairo, Egypt | 12/2022 – 07/2023

- Led a software development team of 4 engineers to test and deploy medium-to-large scale enterprise web systems from scratch.
- Implemented complex architectures including multi-guard authentication, multi-currency processing, and dynamic multi-timezone.
- Integrated secure payment gateways and third-party services, including Zoom API for seamless virtual meeting capabilities.
- Championed rapid deployment cycles, consistently delivering robust, clean-coded features 15% ahead of strict project deadlines.

KEY PROJECTS

Zawaya Platform (Saudi eLearning Live Platform)

- Converted static visual mockups into a responsive, pixel-perfect UI using **Tailwind CSS**, enhancing user experience.
- Integrated and configured **BigBlueButton (BBB)** API to power secure live online classes for thousands of concurrent active students.
- Designed a complex DB architecture to manage course lifecycles, schedules, multi-subject tracks, and instructor assignments.
- Integrated secure checkout workflows with advanced payment solutions, including **Apple Pay** for the Saudi market.
- Implemented precision backend logic to dynamically activate live session entry buttons just 5 minutes before class time.

Technologies: Laravel, MySQL, BigBlueButton API, Apple Pay, Tailwind CSS, Server Deployment.

Modareskom (Multi-Vendor eLearning Marketplace)

- Engineered a peer-to-peer educational marketplace allowing instructors across the Arab world to sell live sessions.
- Designed a flexible booking system supporting 100+ dynamic daily time-slots with varying price-tiers per subject/grade.
- Integrated **BigBlueButton** API to automate the creation and management of secure virtual classrooms for confirmed bookings.
- Implemented multi-currency payment workflows, enabling students across multiple countries to pay seamlessly using local currencies.

Technologies: Laravel, MySQL, BigBlueButton API, Multi-Currency Gateways, Bootstrap.

Other Notable Systems Deployed

- Elhaffar Rig Store:** Full-featured e-commerce system supporting dynamic product catalogs and inventory tracking.
- 9 Red Shield & Matrix:** Custom web applications focused on performance processing, security, and operational workflows.
- Machon Sama Exam System:** Automated grading and testing system equipped with precise time management.

EDUCATION

Bachelor's Degree in Management Information Systems

Madina Academy

09/2020 – Present

Core: OOP, DBMS, Operating Systems, Systems Analysis & Design.

LANGUAGES

- Arabic:** Native.
- English:** Professional working proficiency (Technical writing & documentation).
